

STM inputs

120 initial landscapes
(10 by set of parameters)
at the equilibrium
with the climatology
1970-2000

12 set of parameters
selected by likelihood

23 GCMs (2015-2095)
every 5 years
(scenario RCP 8.5)
Windows averaging
on the past 15 years

STM Simulations

4 STM versions

For each inputs combination: 10 simulations by STM version
